

DCS-8302LH

Full HD Wi-Fi Camera

Wi-Fi or Ethernet
Connectivity

mydlink™

D-Link®

Product Highlights

Sheltered Weather Resistant

Suitable for covered outdoor installation

AI-based Person Detection

Delivers smarter, more relevant alerts using onboard AI

Built-in Speaker/Siren

95 dB speaker/siren to scare off intruders or alert you to a detection

Home Surveillance, Unconfined

Meet the DCS-8302LH, the Full HD Wi-Fi Camera that lets you keep a closer eye on what's happening at home. Its stylish design blends well into any home, while its sheltered weather resistance lets you place it in covered areas outside the home. From front porches to back patios, it's - Home Surveillance, Unconfined.

Clearer, Smoother Video, Even in the Dark of Night

The DCS-8302LH shoots vivid Full HD 1080p resolution at a smooth 30 fps (frames per second) with local image processing, and its 135-degree wide-angle FOV (field-of-view) captures even more of your home in crystal clear detail. With its built-in IR (infrared) night vision, you can always see what's happening - even in total darkness.

Edge-Based Person Detection

Edge-based Person Detection sets the mydlink Full HD Wi-Fi Camera in a class of its own. Edge-based technology processes information in real-time, cleverly discerning between human and non-human movement. So unlike other cameras that bog you down with a never-ending stream of irrelevant motion-detection alerts, this camera is intelligent enough to send you alerts only when it really matters - such as distinguishing between a moving bug and a person. And since image processing is done locally on the camera, there's less lag and less bandwidth required.

More Surveillance, Wherever you Need It

Place the DCS-8302LH anywhere inside your home for instant peace of mind. But if you'd rather keep an eye on what's happening outside, the DCS-8302LH is sheltered weather resistant, so anywhere there's cover - your camera's good to go! From the kitchen to the playroom, or the garage to the back porch, the DCS-8302LH has every corner covered. What's more - adjust the camera on its rotating base and capture the perfect angle every time.

Features

- ◆ True Full-HD quality with 135° wide angle views (1080p at 30 frames per second)
- ◆ Weather resistant design for indoor and covered outdoor applications
- ◆ AI-Based Edge Intelligent Video Analytics
- ◆ Built-in 95 dB Siren to scare off intruders or alert you to a detection
- ◆ IPv6 Support
- ◆ ONVIF Profile S for simple interoperability between cameras and devices such as NAS and CMS
- ◆ Works with, Amazon Alexa and the Google Assistant¹
- ◆ Rich Notifications let you take action right from your lock screen
- ◆ Record videos² to a microSD card³, your phone, or the cloud
- ◆ AES128-encrypted video and audio streaming

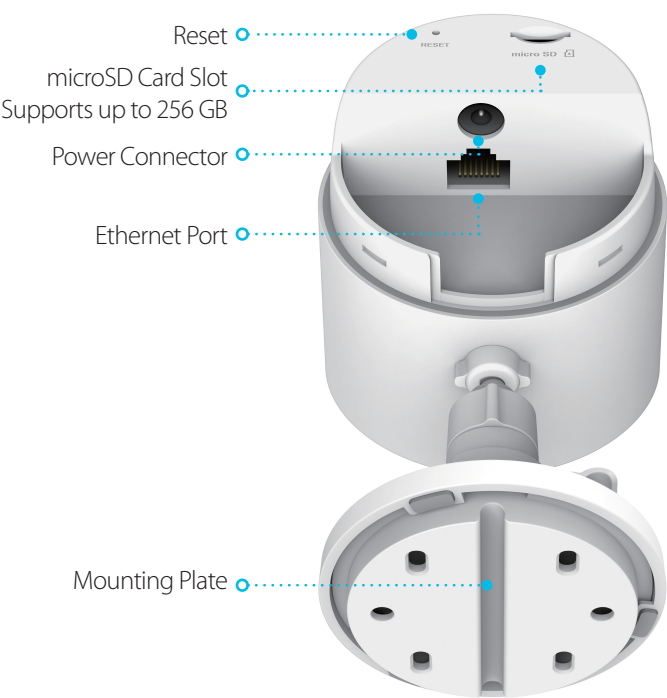

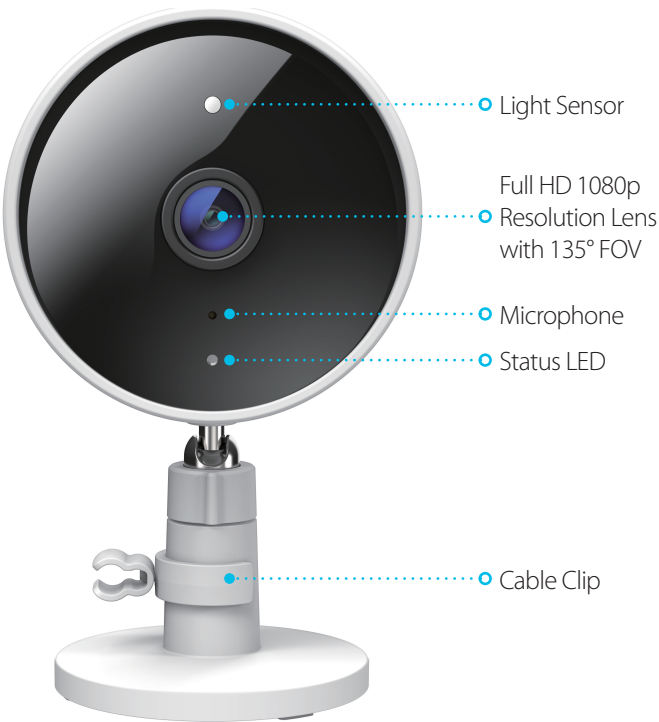

All Your Footage Saved

Worried that you'll lose all your camera footage? Don't sweat it. The DCS-8302LH lets you record and save video clips to the mydlink Cloud Recording service for anytime access. Play back recordings from the cloud or download footage to your mobile device from anywhere, anytime over the Internet. You can also equip it with a 256 GB microSD card, or alternatively manage the device through an ONVIF Profile S client.

Get More Control With mydlink

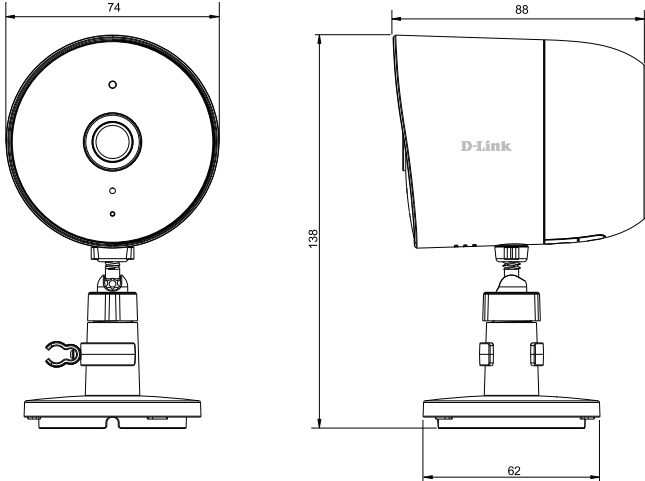

Set up the DCS-8302LH easily via the free mydlink app. Thanks to built-in Bluetooth Low Energy, you can get set up in a matter of minutes. Simply download and install the app on your mobile device and follow the step-by-step instructions to quickly configure the device.
